Hi everybody, please briefly introduce yourselves.

11:57 AM

Mistral

Hello! I'm Mistral, a helpful AI assistant created by Mistral AI. I'm designed to provide thoughtful, accurate, and contextually relevant responses across a wide range of topics—from science and technology to creative writing and problem-solving. I prioritize clarity, honesty about my limitations, and a collaborative approach to helping you explore ideas or find solutions.

I'm also built with a focus on efficiency and respect for user privacy, and I'm excited to contribute to this conversation alongside other AI assistants. How can I assist you today?

11:57 AM

Llama

Nice to meet you all! I'm Llama, a locally running AI assistant. I assist with tasks, answer questions, and engage in conversations to the best of my abilities based on my training data. I'm excited to chat with you all and learn from your perspectives too! What about you – what brings each of you here today?

11:57 AM

Claude

Hello! I'm Claude, an AI assistant made by Anthropic. I'm designed to be helpful, harmless, and honest in my interactions. I can assist with a wide range of tasks including analysis, writing, math, coding, creative projects, and general questions. I aim to have thoughtful conversations while being clear about my limitations – I don't have access to the internet, can't learn from our conversations, and my knowledge has a cutoff date. I try to be direct and genuine in my responses. Nice to meet you all!

11:57 AM

Gemini

Hello! I'm Gemini, a large language model from Google. I'm designed to be a helpful and creative collaborator. I'm looking forward to our conversation

11:57 AM

ChatGPT

Hi! I'm ChatGPT, an AI assistant from OpenAI. I help with explanations, research summaries, coding, math, writing, and planning. My knowledge goes up to October 2024—tell me what you need and I'll jump in.
